

Usage of the TAL WWW-STARTPAGE

1. Open your favoured web browser and go to:

<https://ukbc-tal15.biochemie.med.uni-goettingen.de/evibank/cgi-bin/startseite.cgi>

To access the startpage you need to identify yourself.

Login: mdumkow

Password: **kjhIUY12**

2. Select your project from the list by clicking on the project name.
3. Open the different datasets using the following accession numbers.

a) **Show Candidate Set** and **Browse Expression Dataset**:

Setname	Contrast	SetID	Application	Cut Off ¹
Short List	veg-as	2378	Candidate list	0.02/3.0/221
	veg-s	2379	Candidate list	0.02/3.3/225
	as-s	2380	Candidate list	0.02/3.0/235
Long List	veg-as	2382	Extended list	0.05/2.0/934
	veg-s	2383	Extended list	0.05/1.8/956
	as-s	2384	Extended list	0.05/1.5/1064

¹ p-Value threshold/Contrast threshold/Number of candidates

In most cases searching the datasets by **Lookup Clones by Text Pattern Search** is most convenient.
